

# TIITUS

## Creating a student profile (mobile)

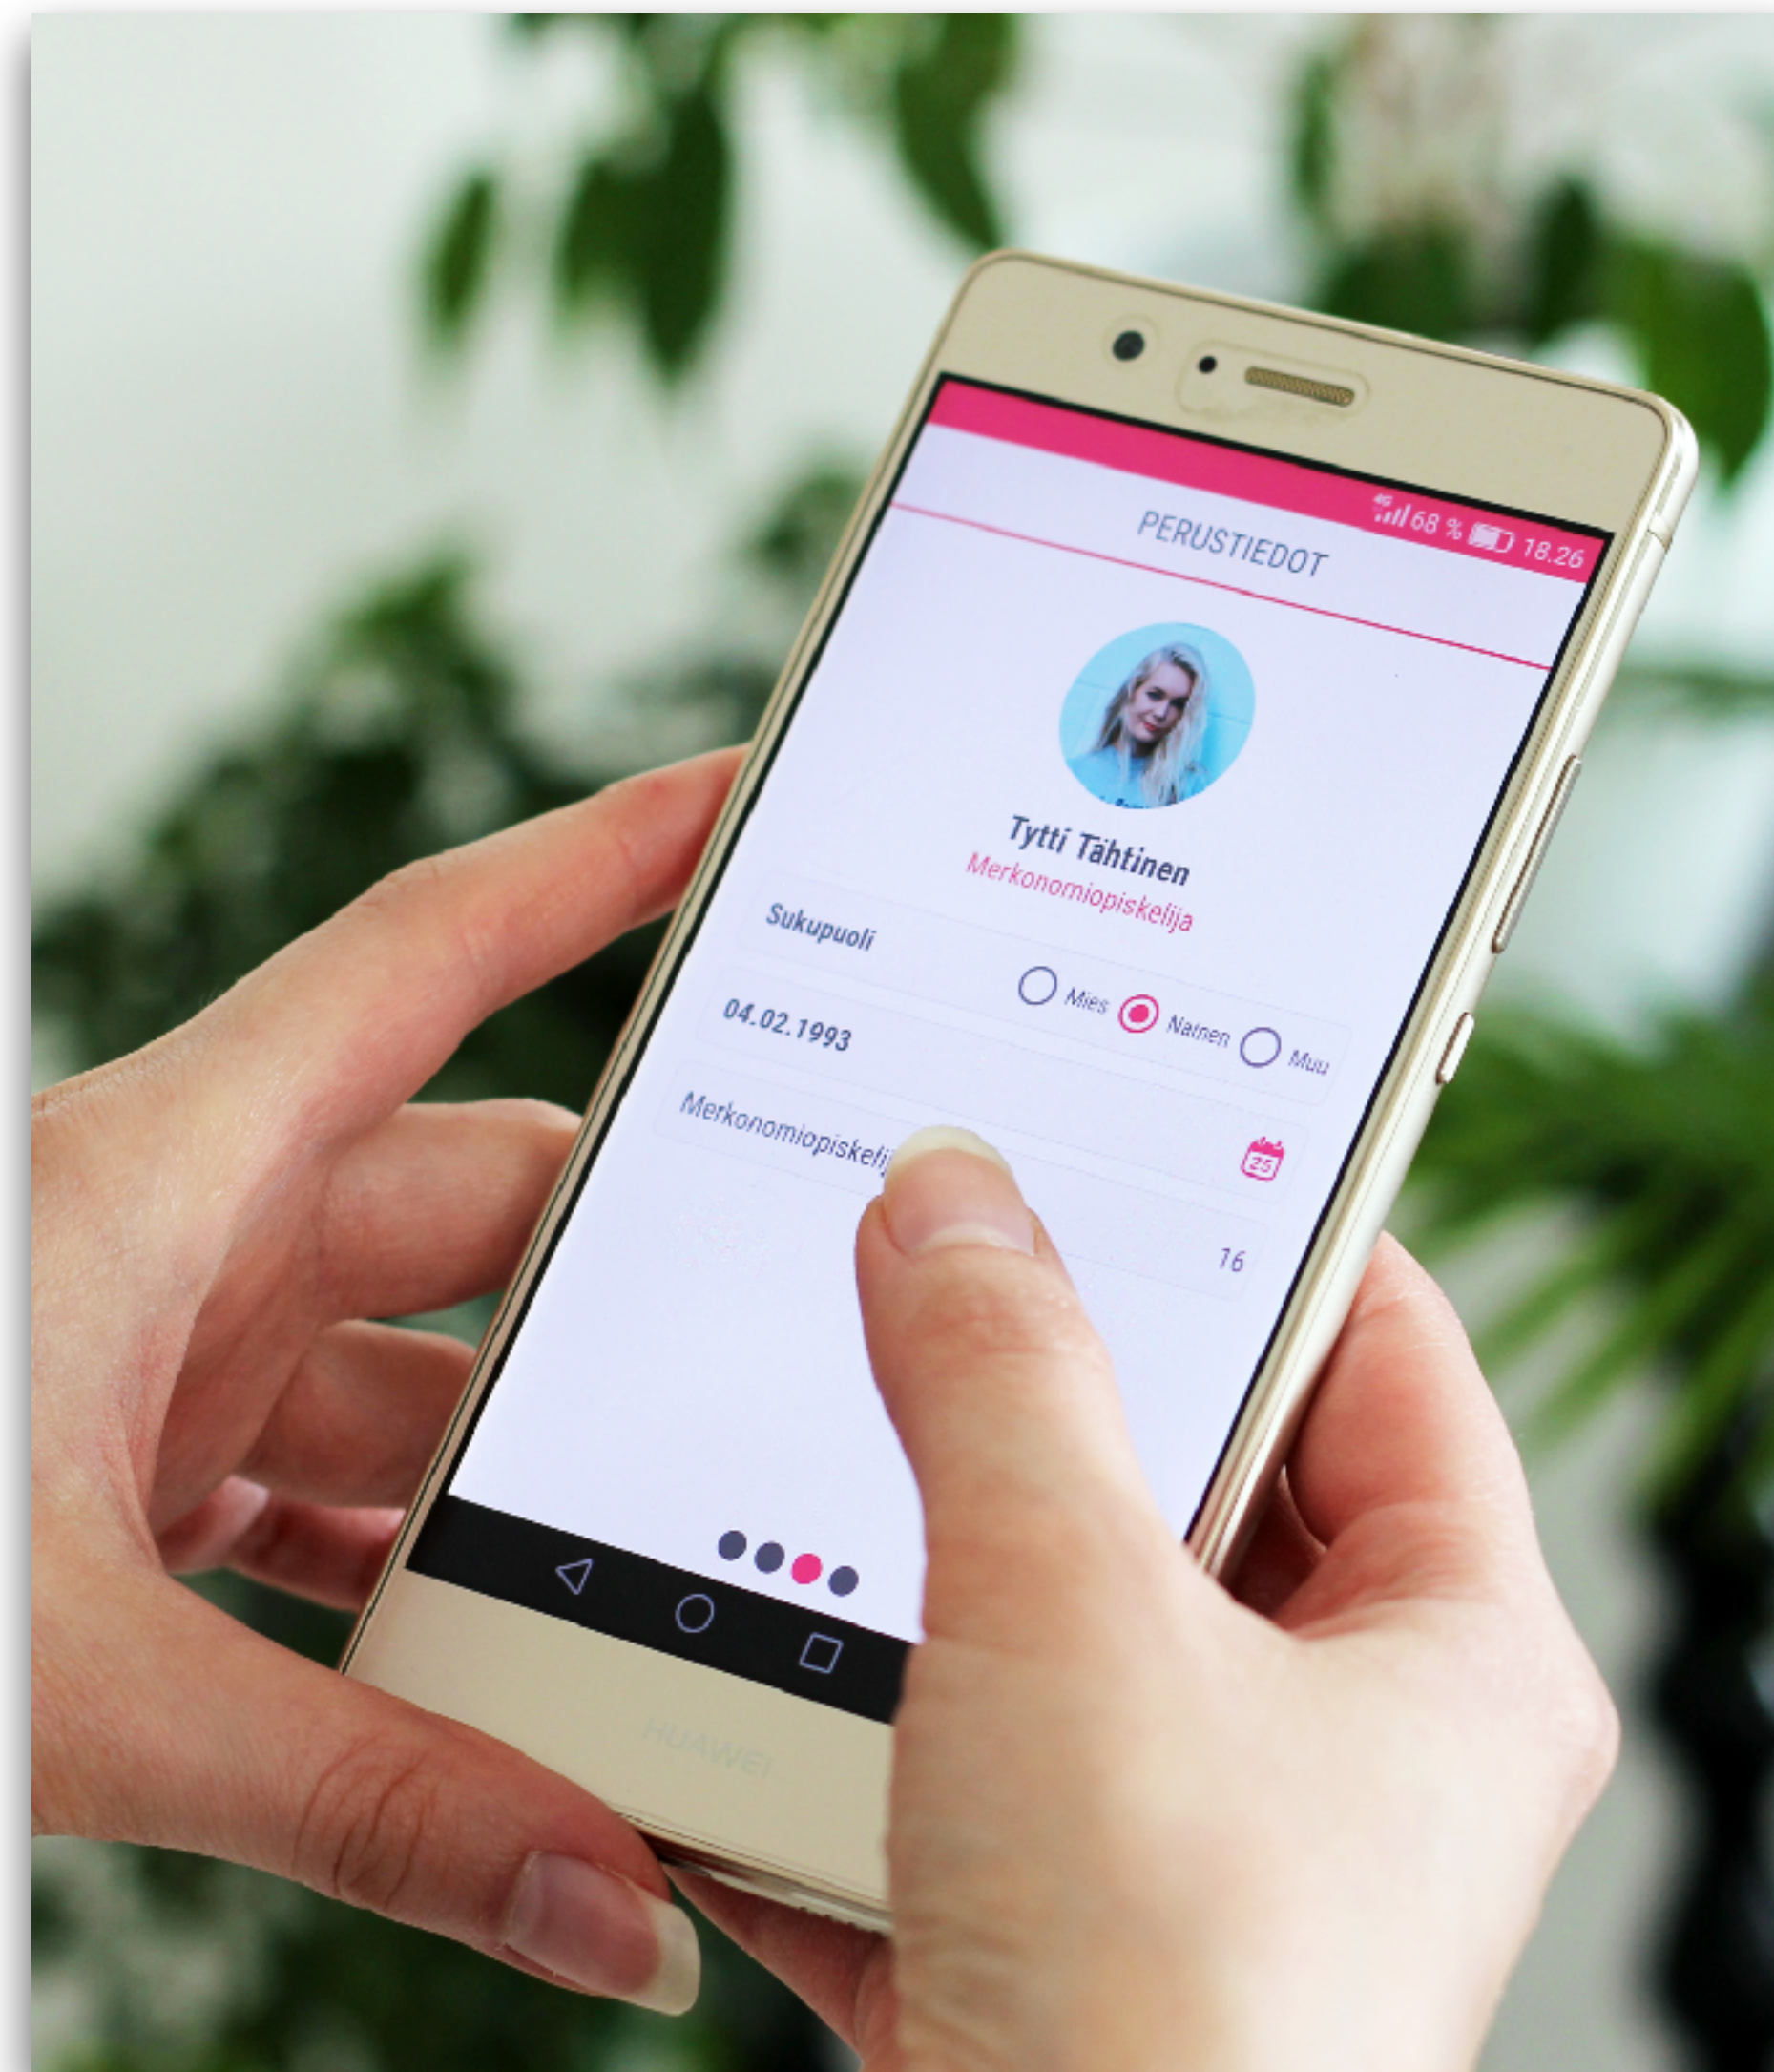

Version 4.75

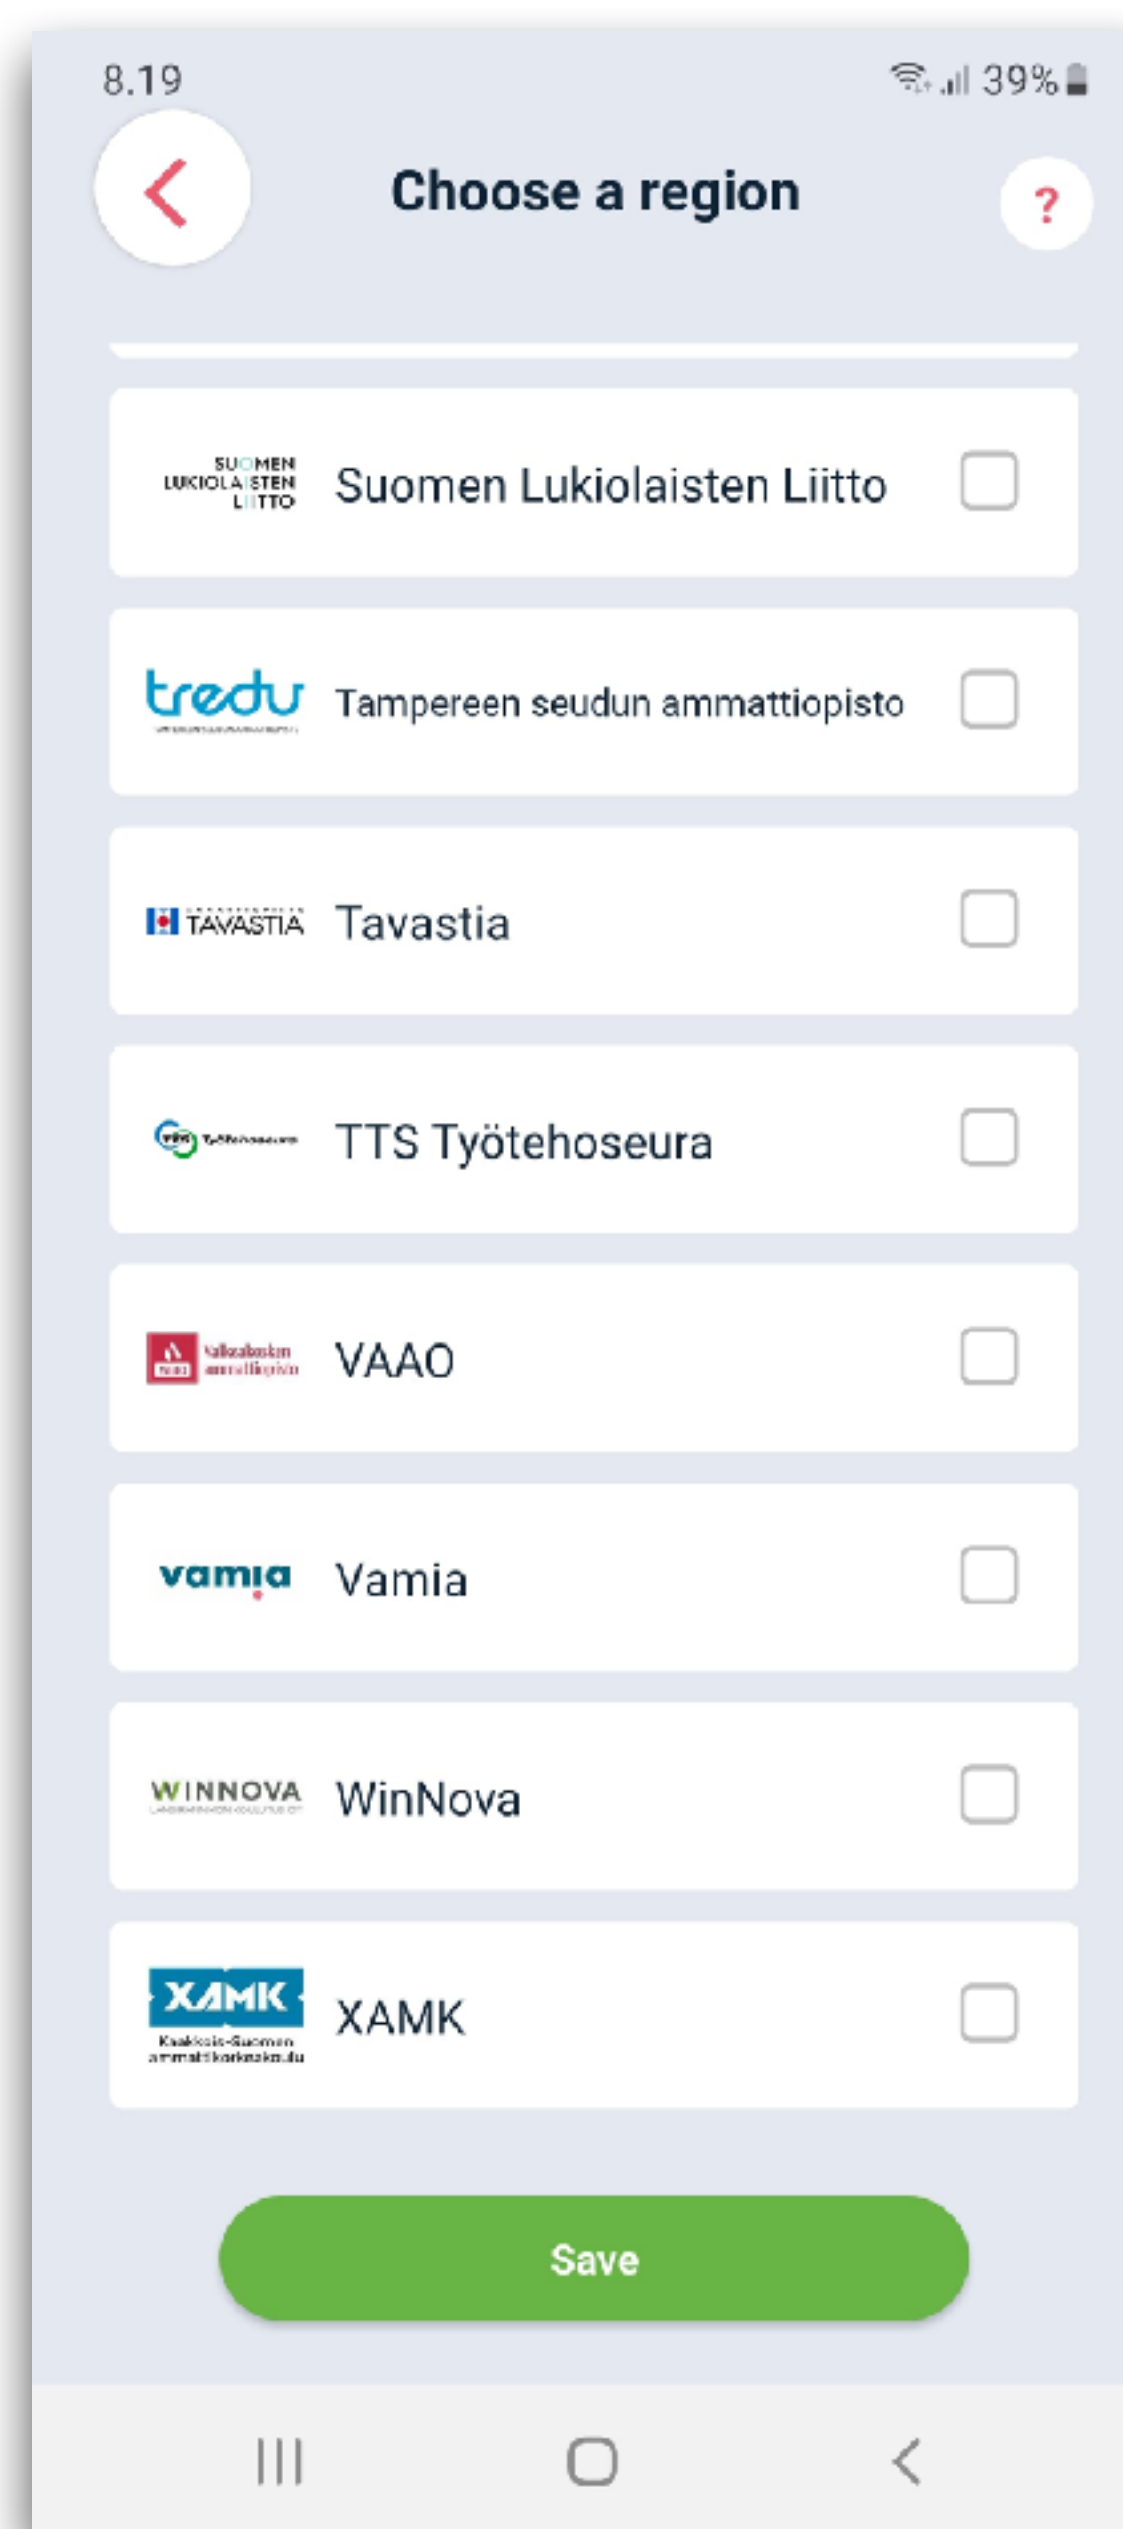

Download Tiitus-app.

You can also use Tiitus in a browser at

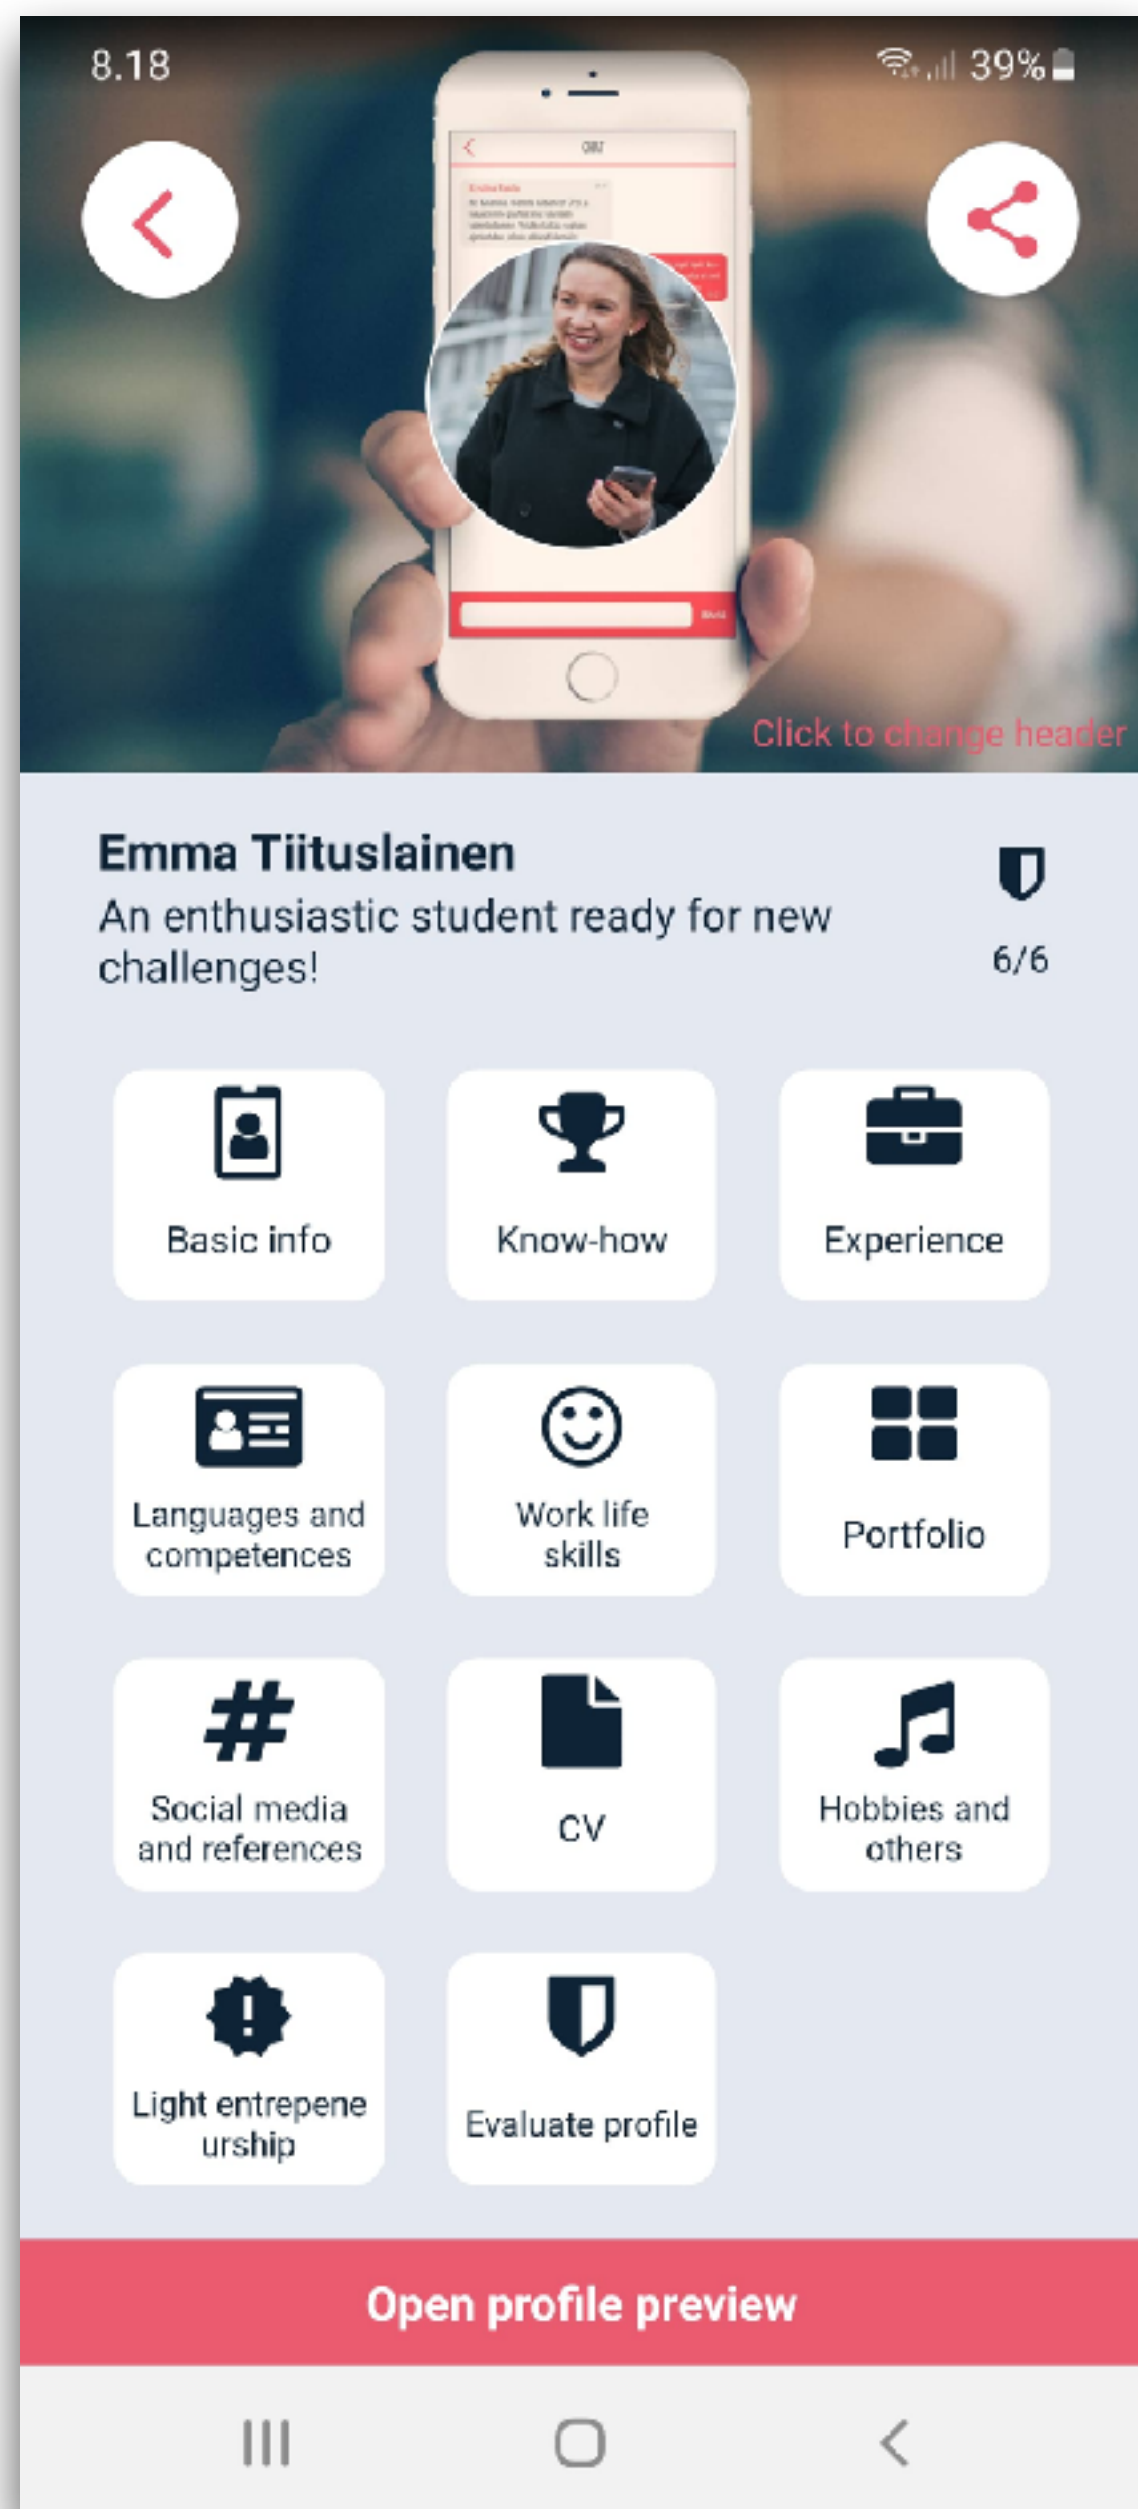

<https://app.tiitus.fi/>

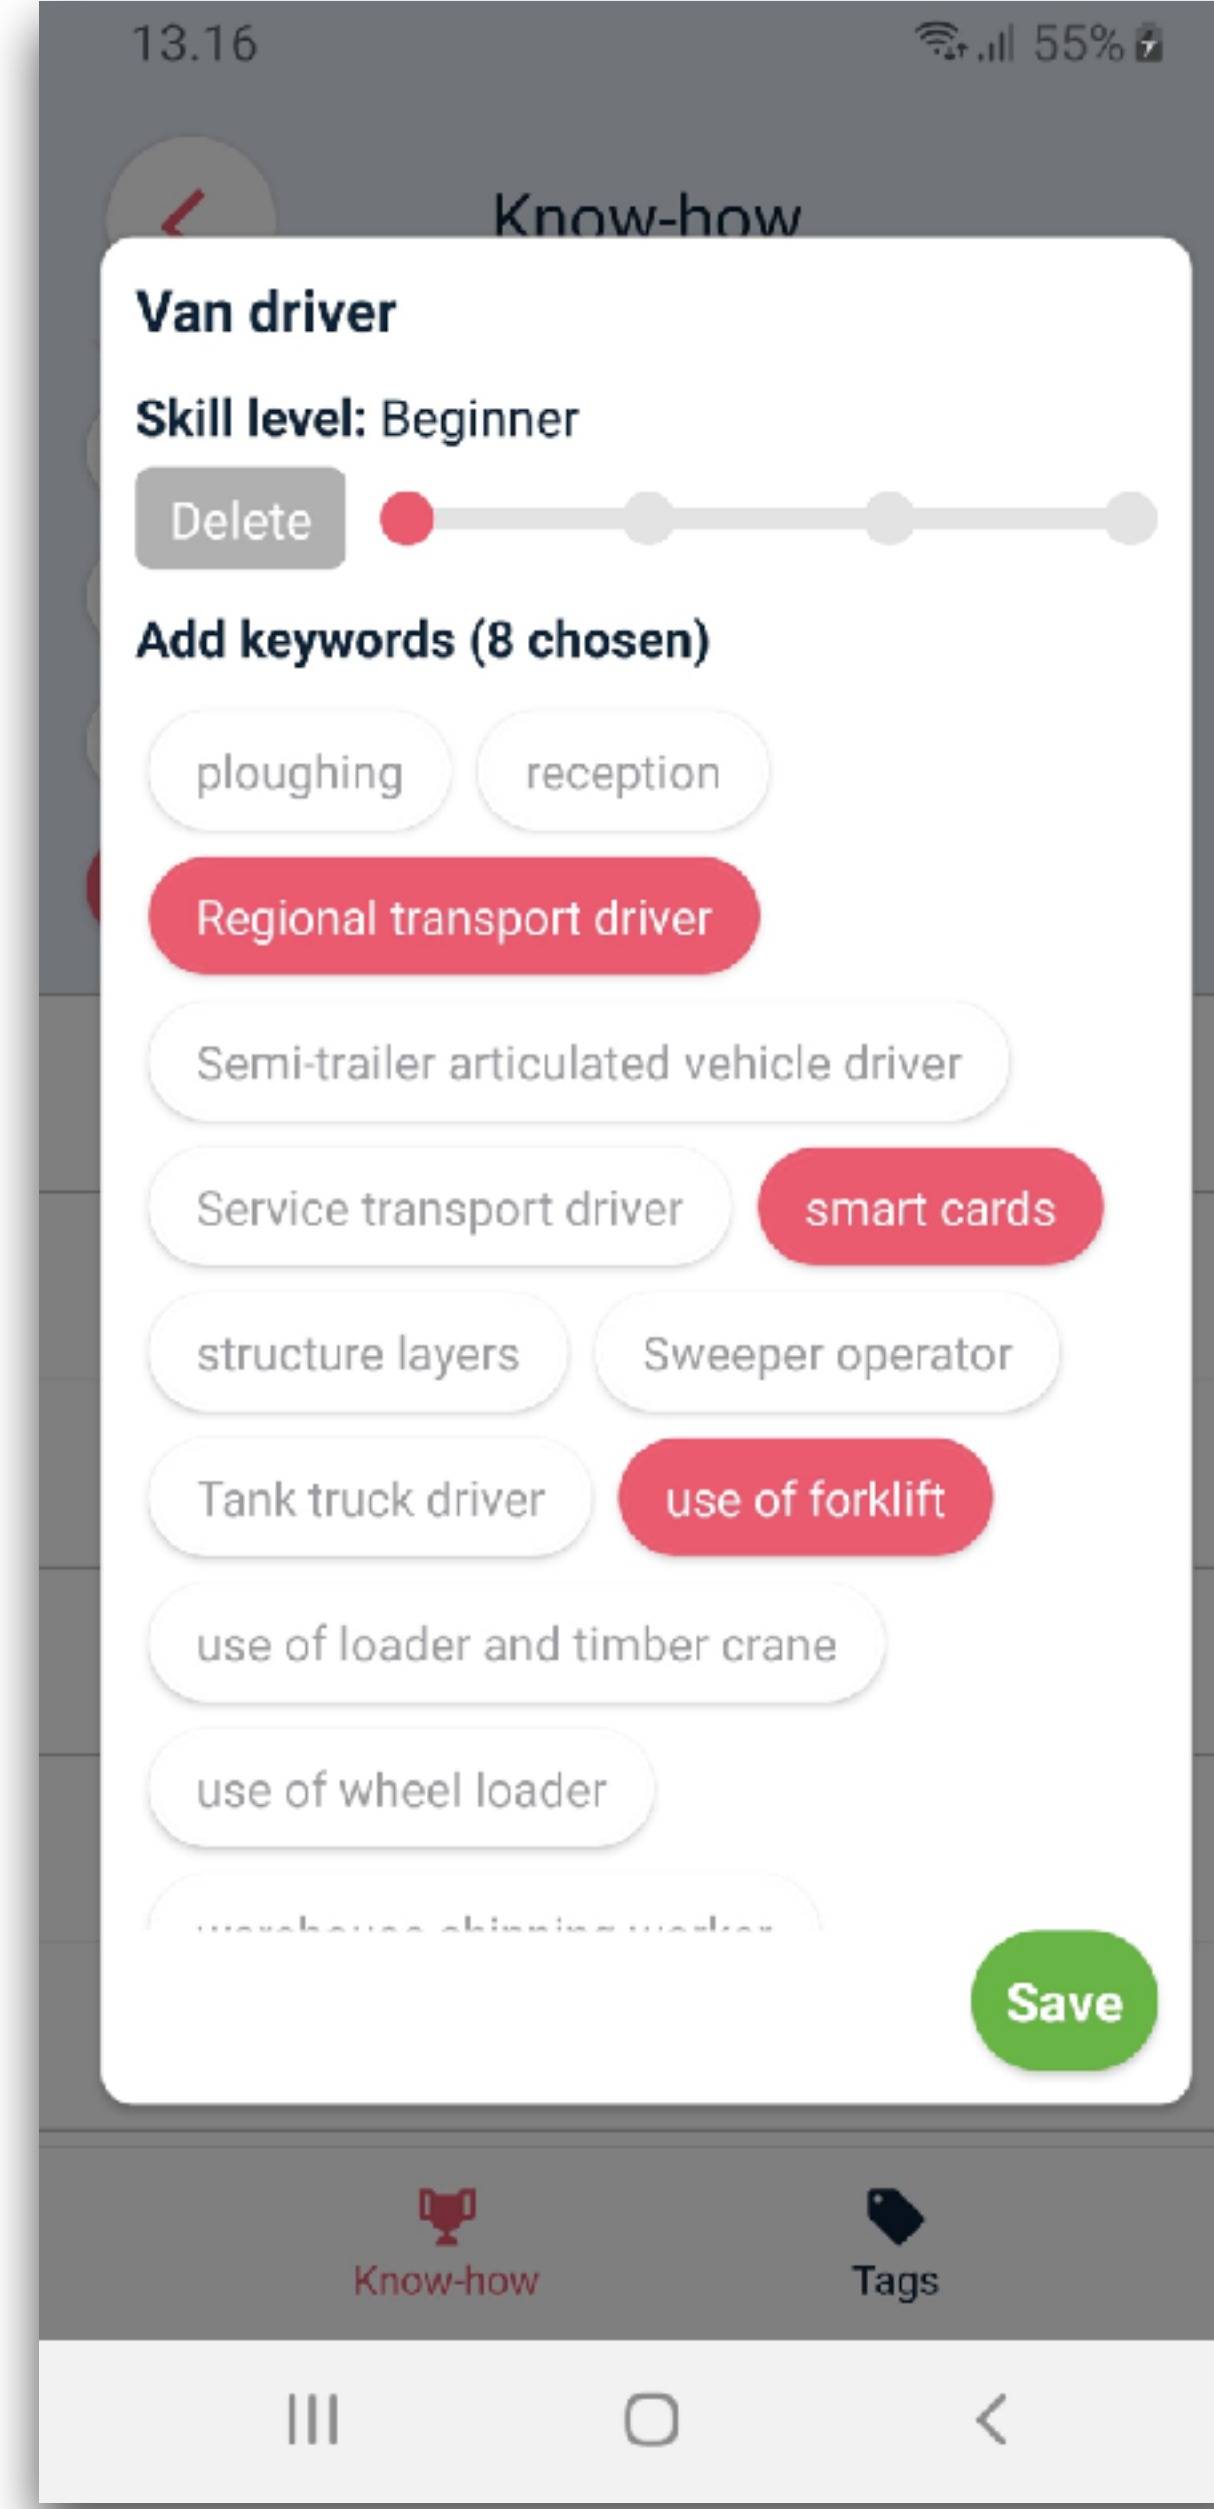

Register

Choose your own region  
(school)

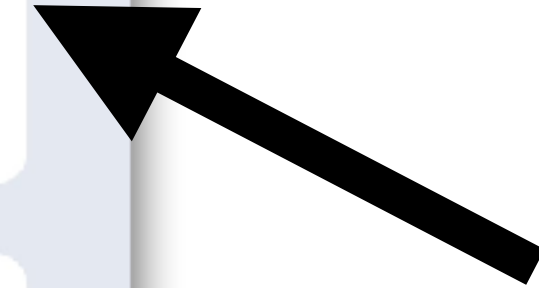

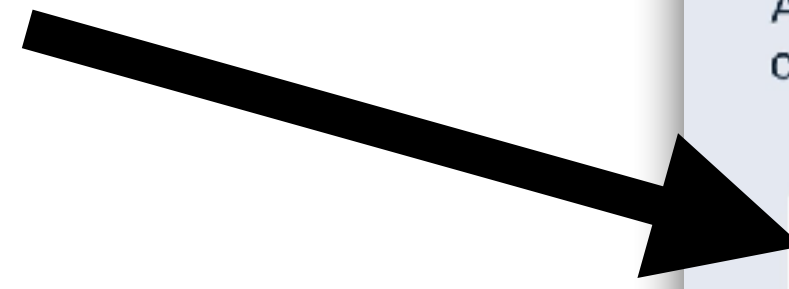

Start to fill your profile

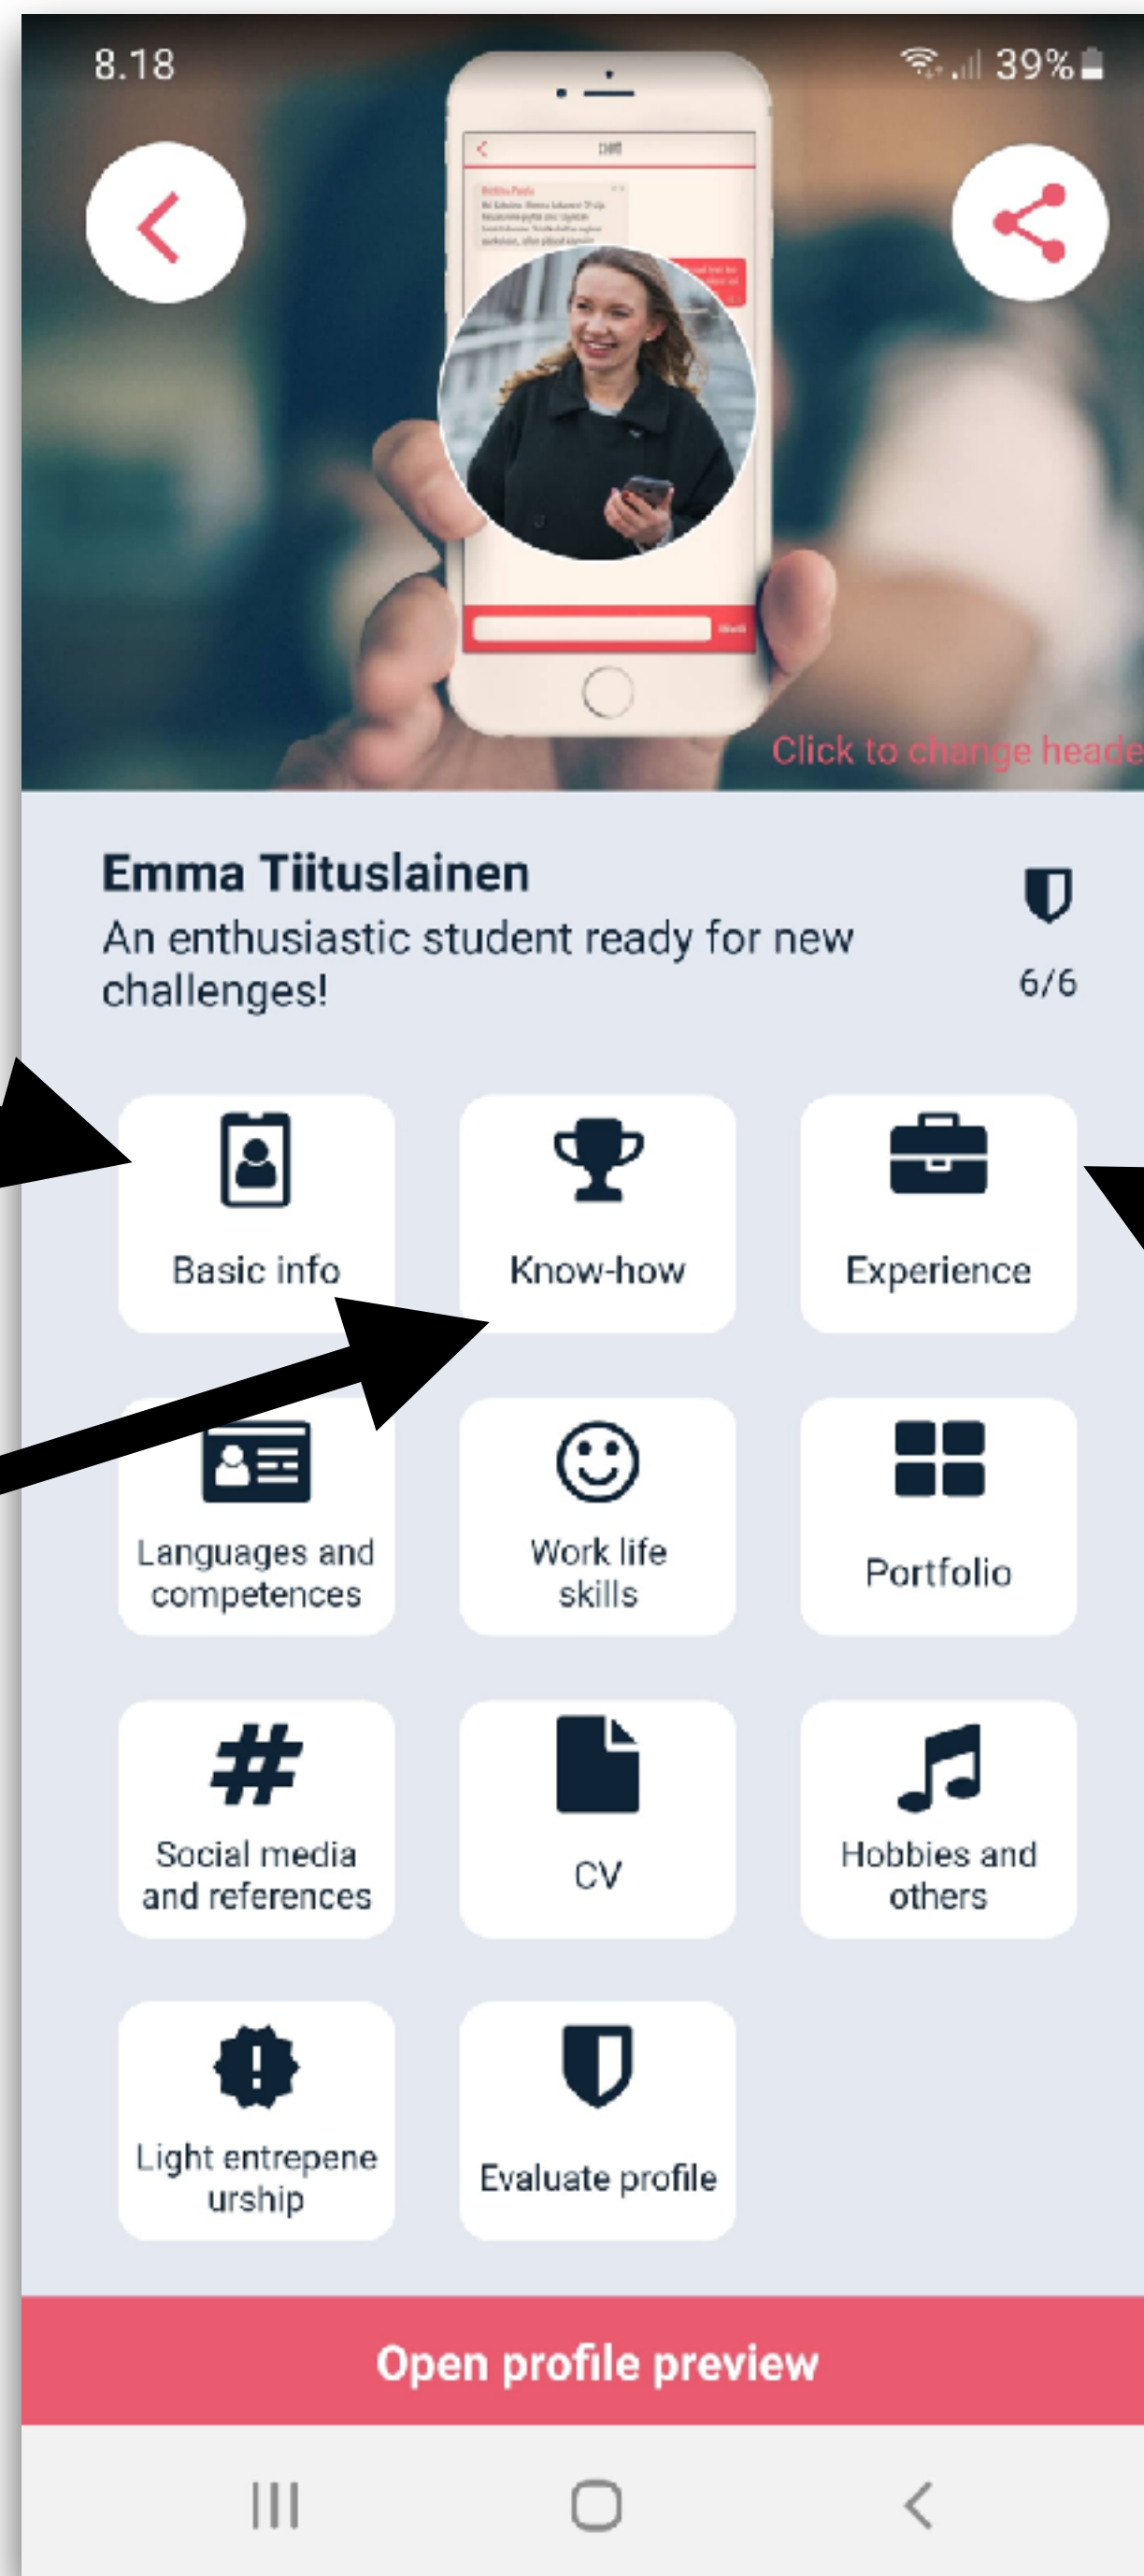

AI gives automatic recommendations when filling profile

In Basic info, you can fill in your own personal and contact information.

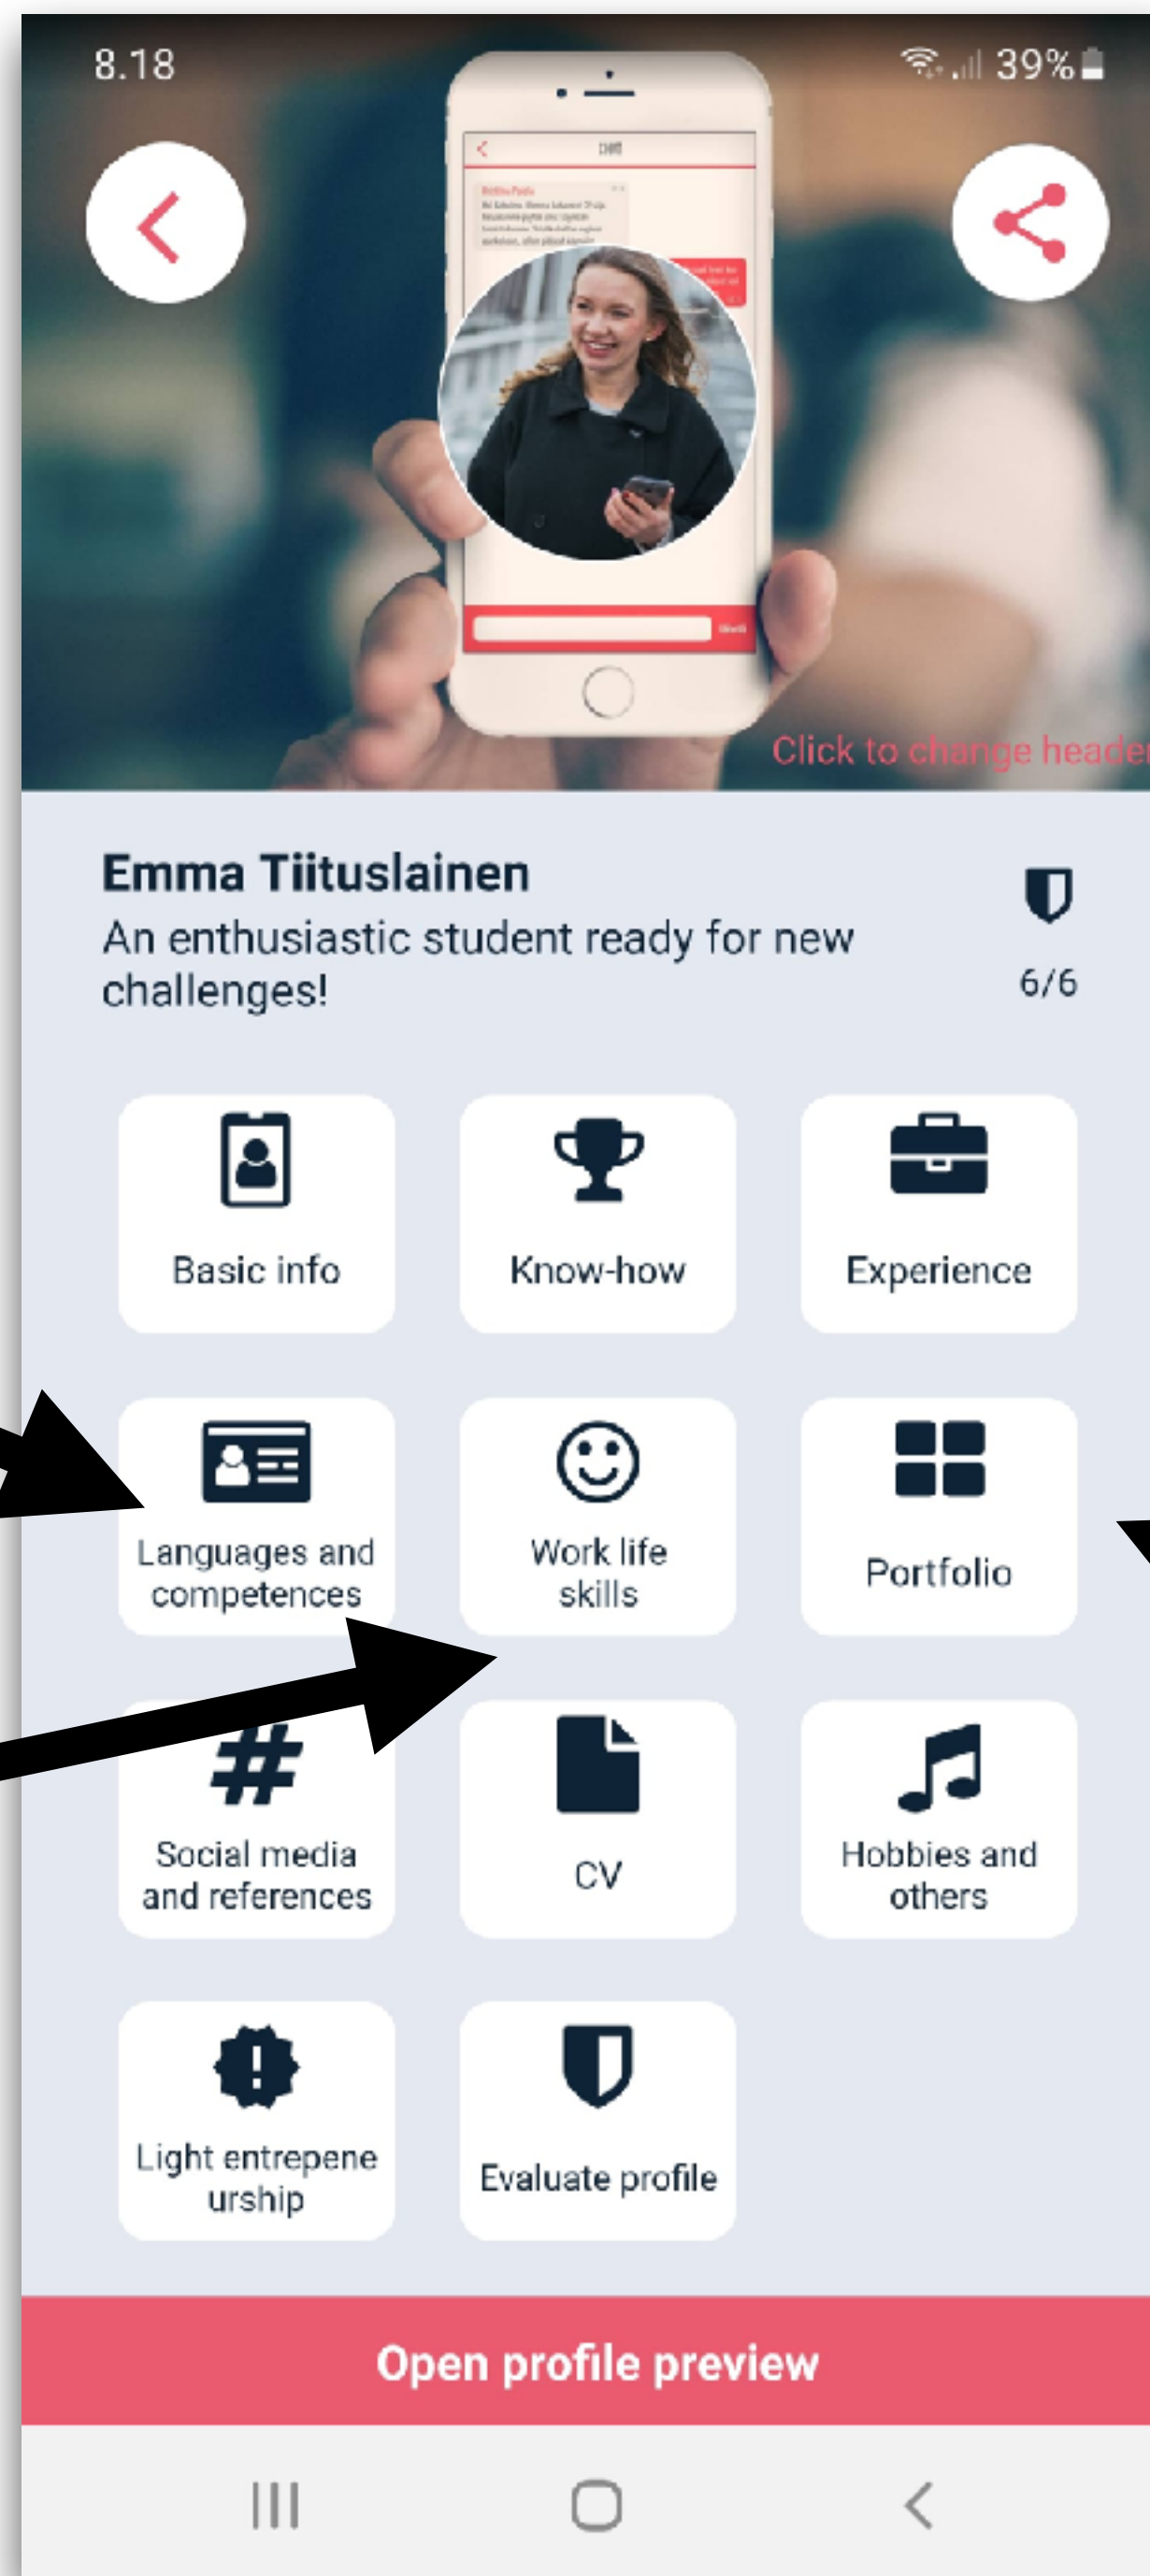

You can also change your email address and password.

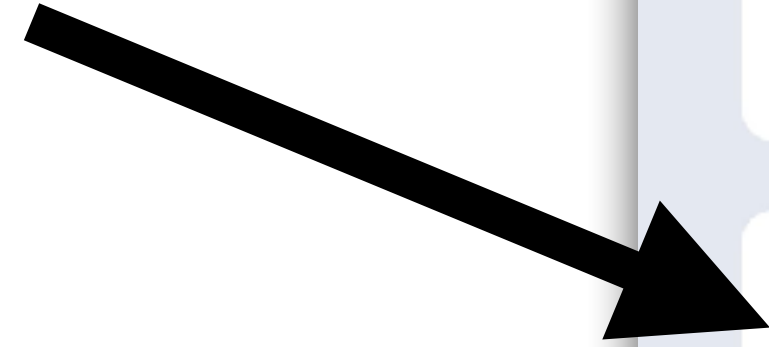

In Experience, you can tell about your previous work experience and education, as well as your other experience (eg volunteering).

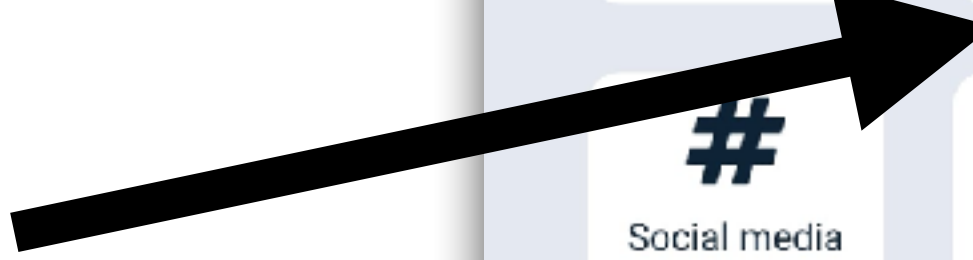

In Know-how, you can tell what you would like to learn or have already learned! This will help you find the right places.

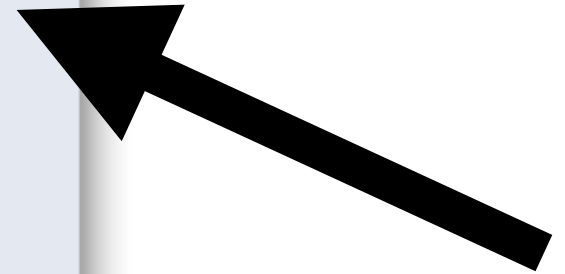

Under Languages and competences, you can specify your own language skills and add any card qualifications you have.

In Work life skills, you can tell more about yourself, describe your characteristics, and set up intership / workplace preferences.

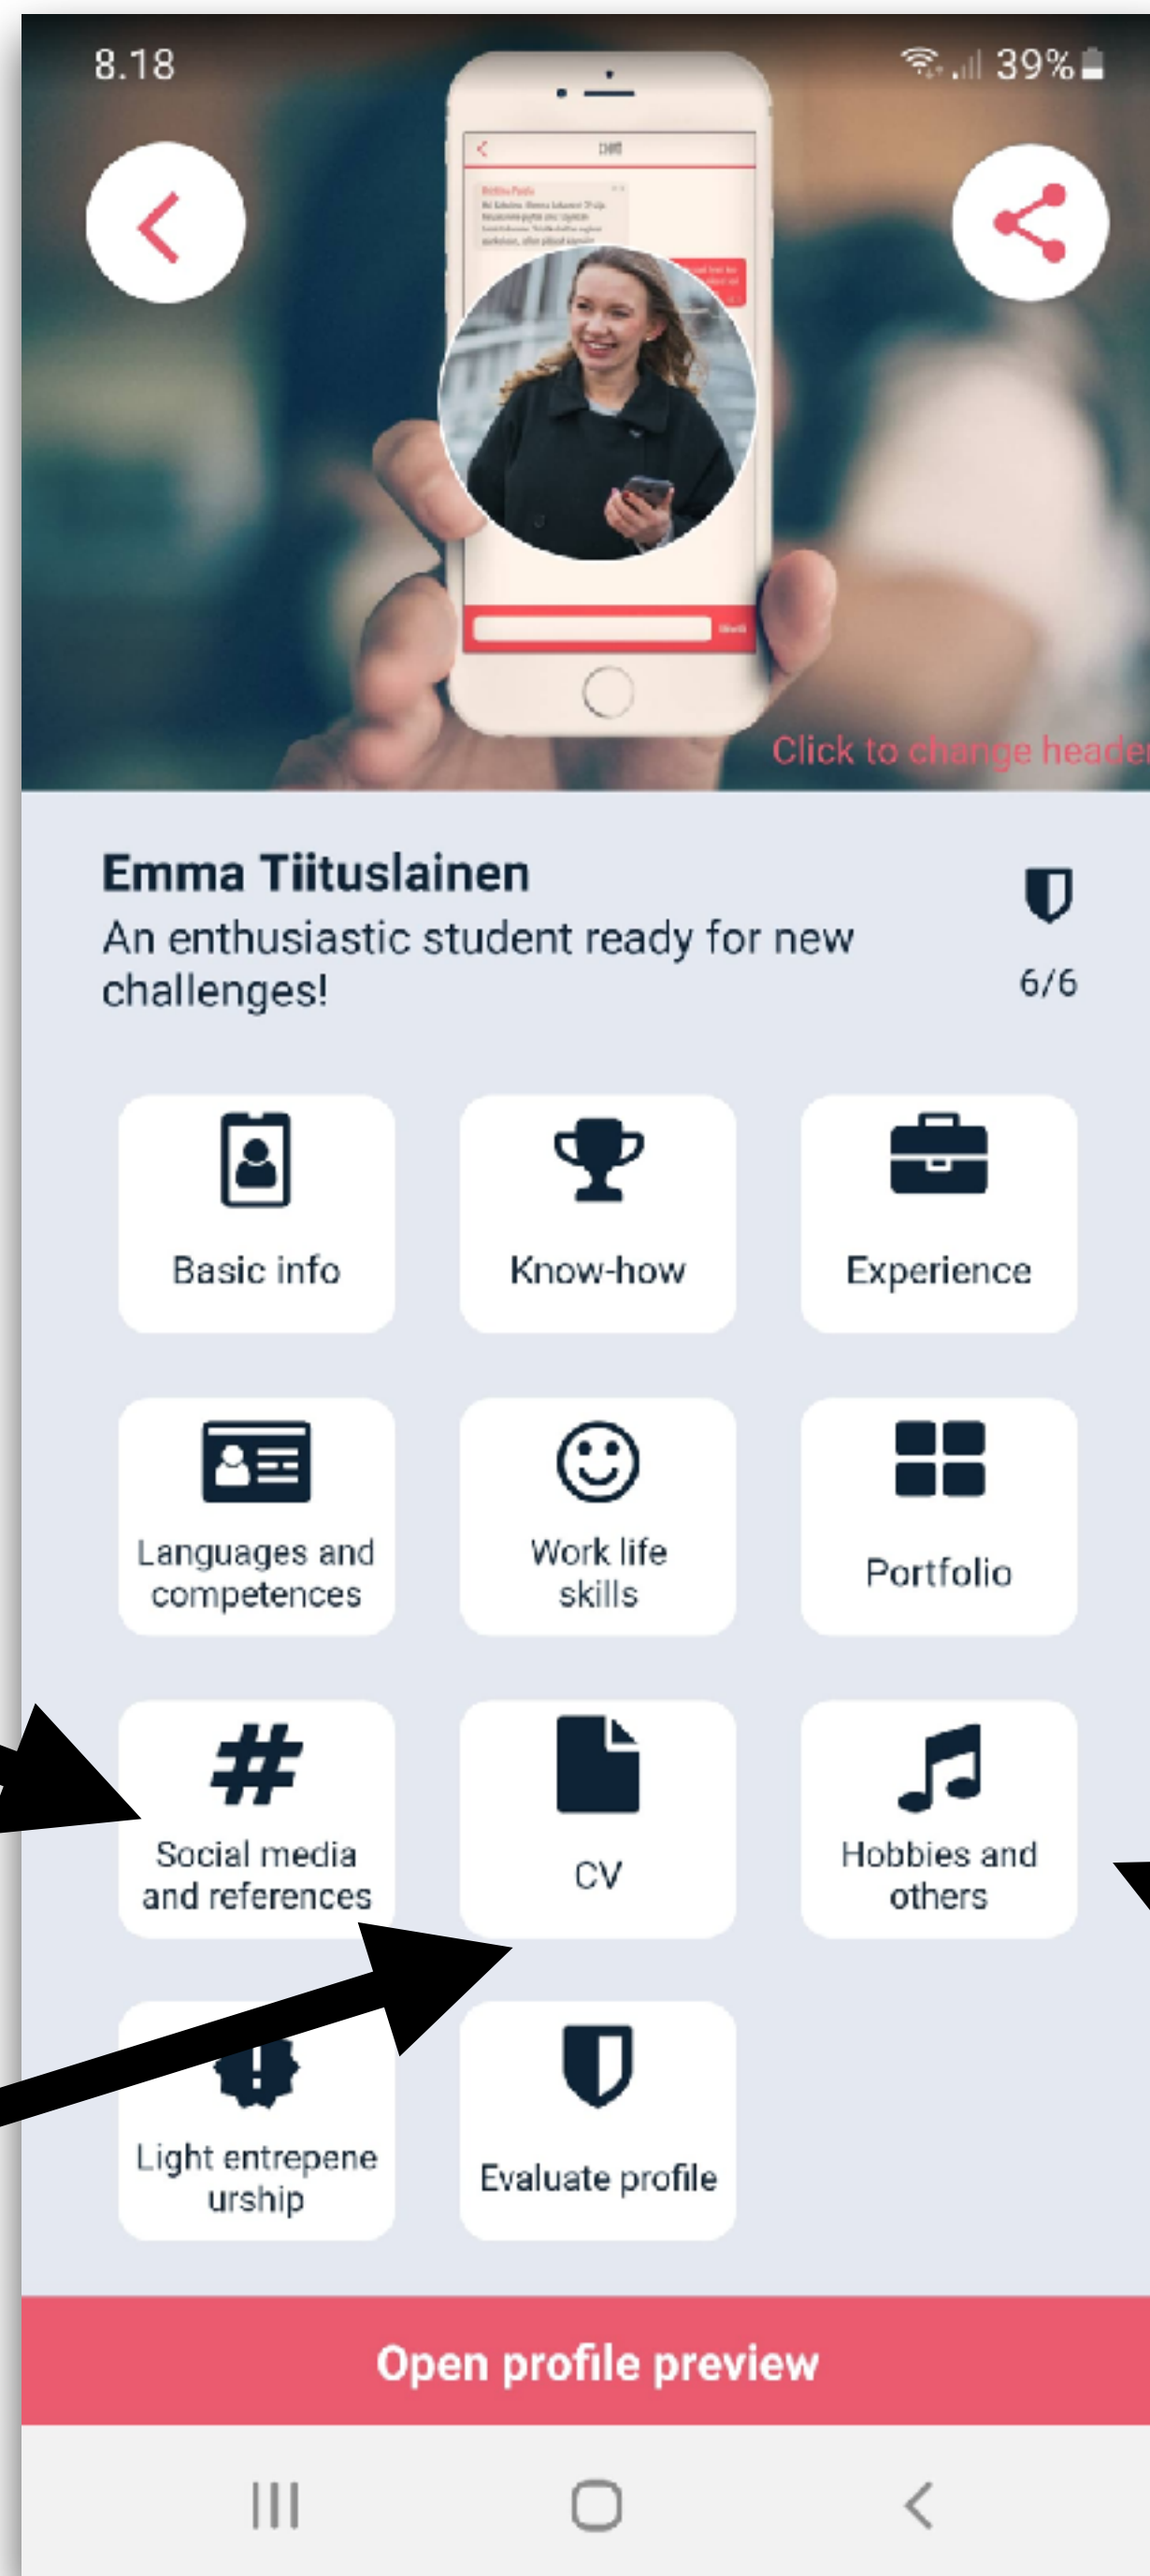

Under Portfolio, you can add pictures, film a video of yourself, and add links (e.g. to a digital badge)!

In Social media and references,  
you can add links to social media  
and add contact information of referrers  
(if you have).

In CV, you can attach a CV  
you have previously made.

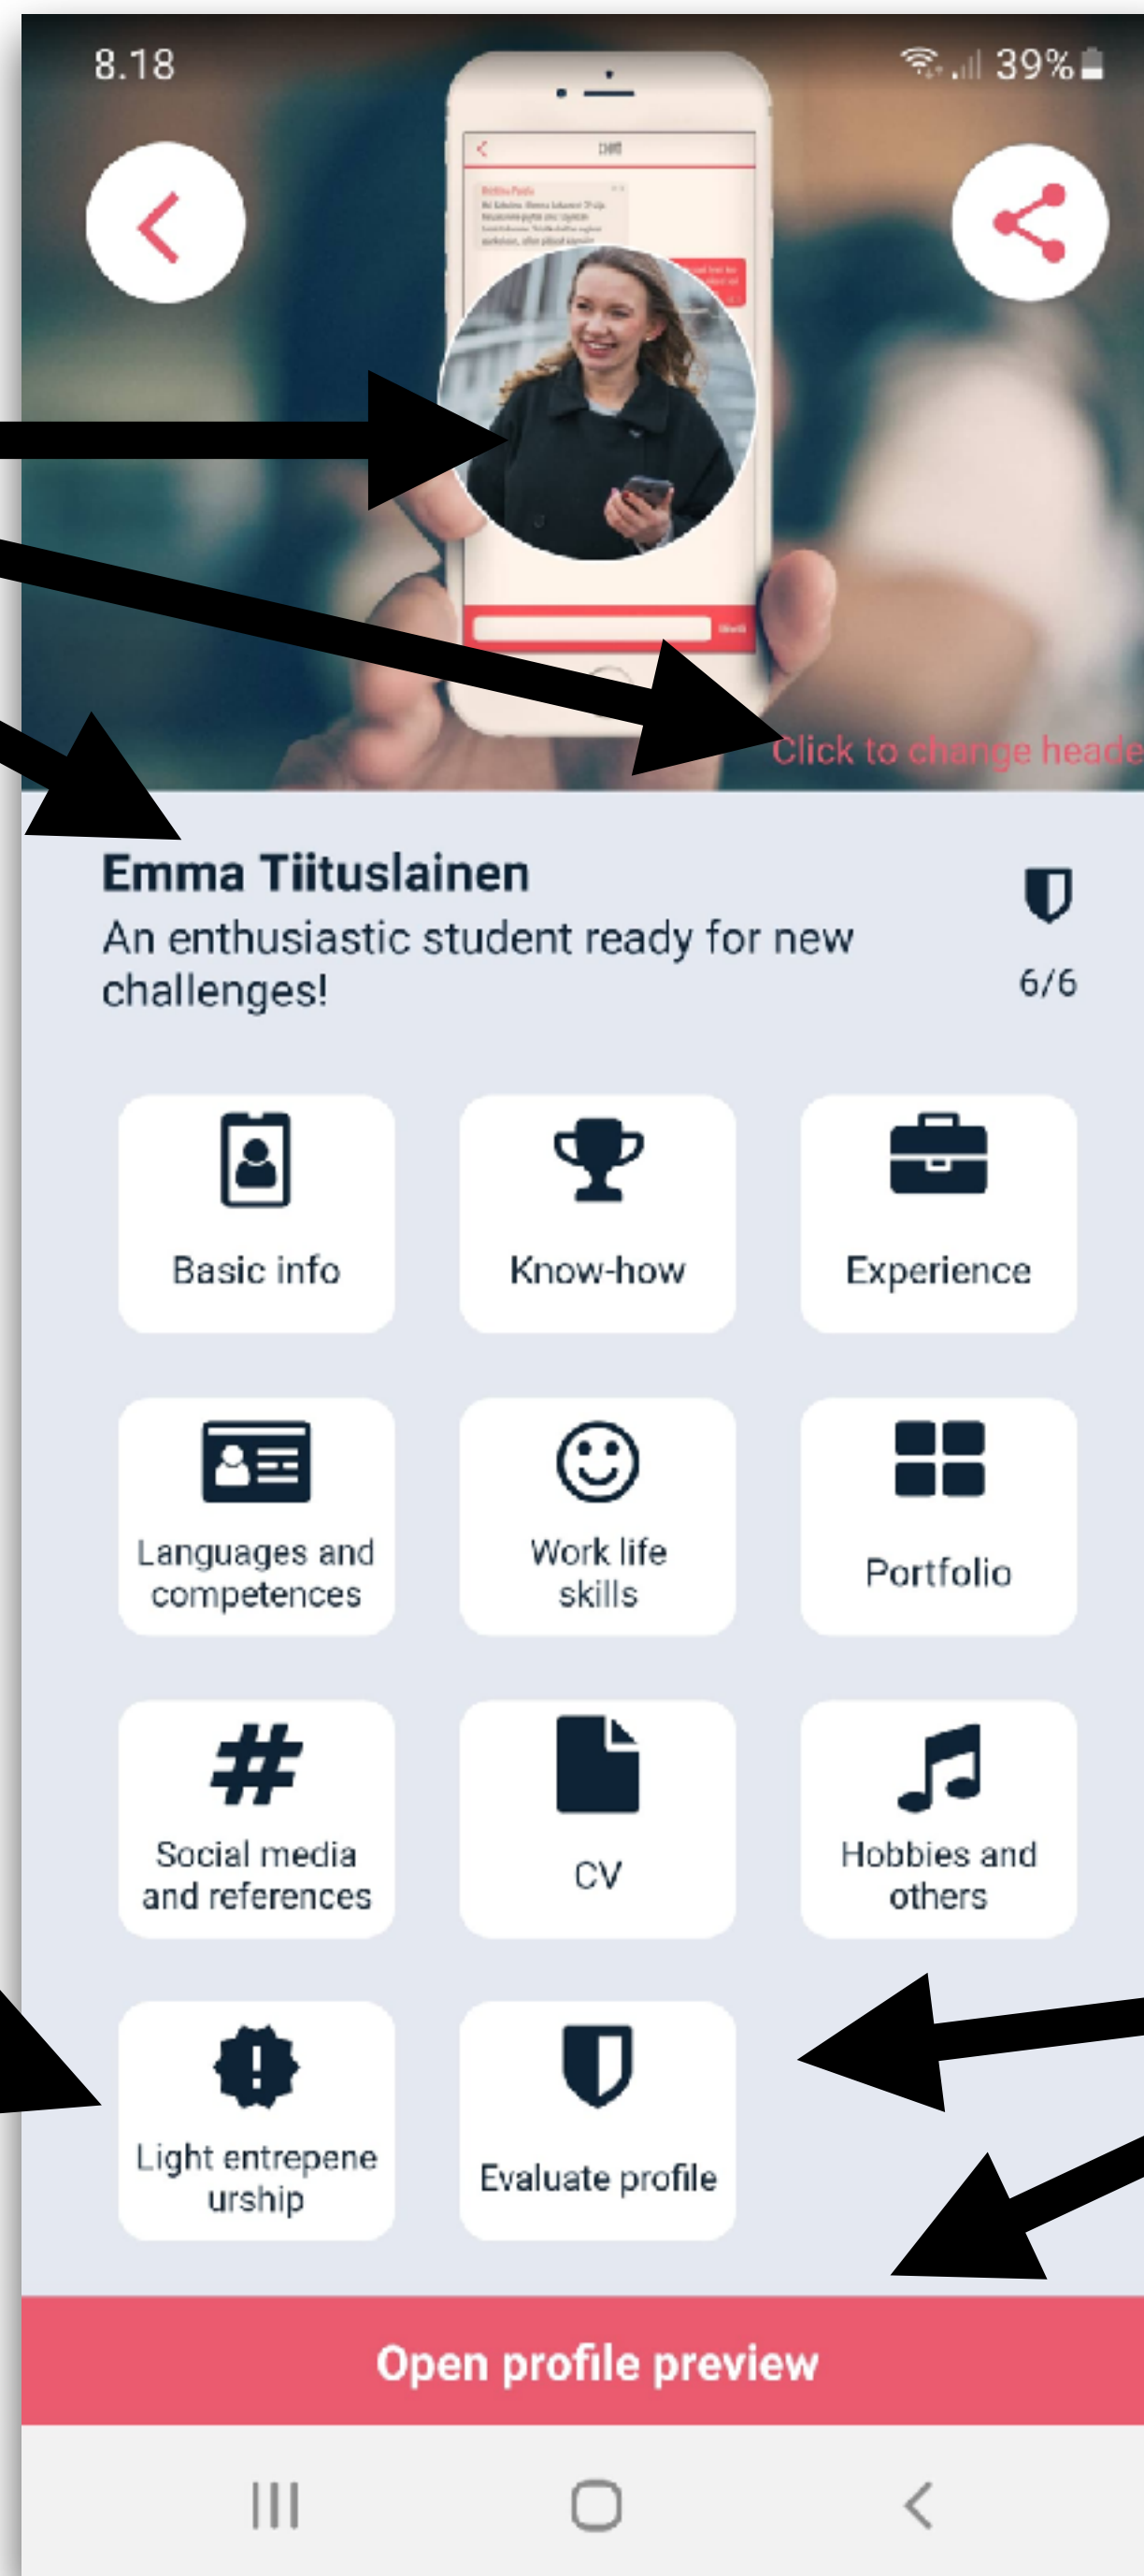

In Hobbies and others,  
you can tell us about  
your hobbies and IT skills!

Add a wallpaper, profile picture, and title to your profile.

You can also easily share your profile as a link!

Here you can learn about light entrepreneurship and enter your light entrepreneurship information!

Finally, check the strength of your profile and have a preview what your profile will look like through the eyes of an employer!
