

# Tiitus mobile guide

version 4.75

Tiitus works on Android and iOS mobile devices, as well as in browser. Download **Tiitus app** from the App Store (iPhone) and Google Play (Android) and **select region of your own school when registering.**

You can also use Tiitus with a browser at <https://app.tiitus.fi/> .

For more instructions, see <https://www.tiitus.fi/wiki>.

The image shows a mobile app interface for a user profile. The profile is for Emma Tiituslainen, an enthusiastic student ready for new challenges. The profile is 6/6 complete. The interface includes a grid of icons for different sections: Basic info, Know-how, Experience, Languages and competences, Work life skills, Portfolio, Social media and references, CV, Hobbies and others, Light entrepreneurship, and Evaluate profile. A red button at the bottom says 'Open profile preview'.

Callout boxes provide instructions for each section:

- Profile Header:** Add a wallpaper, profile picture, and title to your profile. You can also easily share your profile as a link!
- Basic info:** In Basic info, you can fill in your own personal and contact information. You can also change your email address and password.
- Know-how:** In Know-how, you can tell what you would **like to learn** or **have already learned!** This will help you find the right places.
- Experience:** In Experience, you can tell about your previous work experience and education, as well as your other experience (eg volunteering).
- Languages and competences:** Under Languages and competences, you can specify your own language skills and add any card qualifications you have.
- Work life skills:** In work life skills, you can tell more about yourself, describe your characteristics, and set up internship / workplace preferences.
- Portfolio:** Under Portfolio, you can add pictures, film a video of yourself, and add links (e.g. to a digital badge)!
- Social media and references:** In Social media and references, you can add links to social media and add contact information of referrers (if you have).
- Hobbies and others:** In Hobbies and others, you can tell us about your hobbies and IT skills!
- CV:** In CV, you can attach a CV you have previously made.
- Light entrepreneurship:** Here you can learn about light entrepreneurship and enter your light entrepreneurship information!
- Evaluate profile:** Finally, check the strength of your profile and have a preview what your profile will look like through the eyes of an employer!
